# ROBUST, DURABLE, HIGH QUALITY, VERSATILE – THE TRUCK REFRIGERATORS FROM EBERSPÄCHER

TRUCK REFRIGERATORS

A WORLD OF COMFORT

## REFRIGERATORS ON THE GO – ALMOST AS COMFORTABLE AS BEING AT HOME

Nowadays, mobile workplaces are something like a home on wheels to many drivers. They are places to work, live, eat and sleep. The often long stay in the vehicle should be as pleasant as possible – almost as comfortable as being at home. For example, with a refrigerator. A truck refrigerator from Eberspächer.

Our versatile refrigerators keep drinks cool and food fresh even at extreme outdoor temperatures – no matter how long the trip takes. Drivers are more concentrated and relaxed behind the wheel if they can refresh themselves and enjoy a good meal during breaks.

The truck refrigerators from Eberspächer differ greatly from commercially available picnic coolers. The workmanship is of particularly high quality, and the compressor technology – here, coldness is produced by a special CFC-free refrigerant in a cooling circuit – is specially designed for durability and a high number of operating hours. Even deep freezing down to  $-18\text{ °C}$  is possible. They are nevertheless easy to carry and easy to load and unload through the practical hinged lid. Operation is economical and very quiet. Furthermore, the polyethylene housings are exceedingly robust. The sturdy handles allow the refrigerators to be securely fastened in the vehicle. The portable models also can be operated in various vehicles without difficulty. This investment will soon pay for itself.

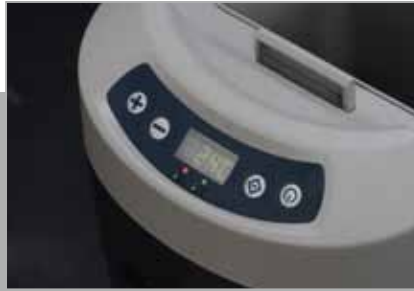

The truck refrigerators are available in various sizes – suitable for every requirement.

In addition to the external refrigerators, the product range includes special stationary built-in variants that can be integrated into certain vehicle models without difficulty and are as powerful and durable as the portable models.

Their robustness and versatility will soon make the mobile and stationary refrigerators from Eberspächer into indispensable traveling companions.

A wide range of special compressor refrigerated containers is available for professional users in order to transport goods independently of the ambient temperature – e.g. food for catering or products from the medical sector. Information is available in specialist stores or at [www.eberspaecher-klima.de](http://www.eberspaecher-klima.de).

## PORTABLE TRUCK REFRIGERATORS

Powerful, versatile and robust – with great cooling power. Even the smallest-volume mobile refrigerators are convincing with their low space requirement and convenient display-based operation. They are particularly easy to carry and are easy to use thanks to the practical hinged lid.

PORTABLE MOBILE REFRIGERATORS			
Technical designation		TB15	TB18
Order number		81 0000 00 2785	81 0000 00 2786
Capacity	liters	15	18
Thermostat temperature control		-18 to +10 °C	-18 to +10 °C
Coolant		R134a, CFC-free	R134a, CFC-free
Insulation		PU foam, CFC-free	PU foam, CFC-free
Voltage DC	V	12/24	12/24
Installed power	W	35	35
External dimensions (WxHxD)	mm	235 x 565 x 360	235 x 565 x 405
Weight	kg	8.2	8.6

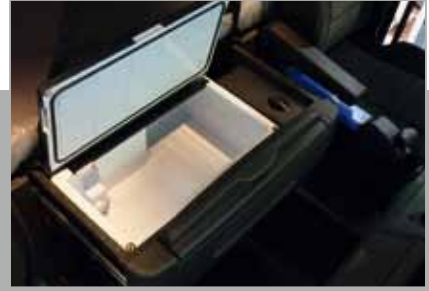

The models TB31A, TB41A and TB51A offer the best possible electronics and technology. Highly efficient compressors, a special power-saving function (ECO), rapid turbo cooling (MAX) and a multi-functional electronic digital display including three-stage battery monitor permit simple use and efficient operation.

PORTABLE MOBILE REFRIGERATORS				
Technical designation		TB31A	TB41A	TB51A
Order number		81 0000 00 2787	81 0000 00 2788	81 0000 00 2789
Capacity	liters	30	40	50
Thermostat temperature control		-18 to +10°C	-18 to +10°C	-18 to +10°C
Coolant		R134a, CFC-free	R134a, CFC-free	R134a, CFC-free
Insulation		PU foam, CFC-free	PU foam, CFC-free	PU foam, CFC-free
Voltage DC	V	12/24, 115/230	12/24, 115/230	12/24, 115/230
Installed power	W	45	45	50
External dimensions (WxHxD)	mm	585 x 350 x 380	585 x 350 x 445	585 x 350 x 530
Weight	kg	16	17	18.5

Operation with mains connection possible. All required connecting cables (12 V/24 V/230 V) are included with delivery for all devices.

## VEHICLE-SPECIFIC COMPRESSOR REFRIGERATED DRAWERS

The refrigerated drawers tailor made for the stated vehicles are installed inconspicuously in compartments specially designed for this purpose in the driver's cab. They are simple to retrofit, easy to reach and work powerfully but quietly.

REFRIGERATED DRAWERS			
Technical designation		TB36	TB25 AM
Order number		81 0000 00 2783	81 0000 00 2784
Suitable for		RENAULT Magnum, DAF XF95/CF65/75/85*	Mercedes-Benz Actros MP3 (MP2)
Capacity	liters	35.5	25
Thermostat temperature control		0 to +10 °C	0 to +10 °C
Coolant		R134a, CFC-free	R134a, CFC-free
Insulation		PU foam, CFC-free	PU foam, CFC-free
Voltage DC	V	12/24	12/24
Installed power	W	60	60
External dimensions (WxHxD)	mm	440 x 715 x 250	554 x 451 x 219
Weight	kg	16	12

\* TB035NN3 also suitable for the Scania "R" by moving the compressor unit from the rear to the left side of the refrigerator

## VEHICLE-SPECIFIC COMPRESSOR REFRIGERATION UNITS

With the vehicle-specific compressor refrigeration units from Eberspächer, the existing thermo boxes in the respective vehicle models can be quickly and easily converted into refrigerated compartments – without sacrificing storage space and ensuring particularly convenient use.

COMPRESSOR REFRIGERATION UNITS			
Technical designation		UR 25	UR 35
Order number		81 0000 00 2781	81 0000 00 2782
Suitable for		IVECO Stralis	MAN TGA/TGX
Capacity	liters	25	33
Coolant		R134a, CFC-free	R134a, CFC-free
Voltage DC	V	12/24	12/24
Installed power	W	60	60
Weight	kg	8.6	8
